ork Custom-House Employees Accused of Pernicious Activity.

rder W. F. Downs, of Binghamton, ong the callers at the headquarters of mocratic State Committee at the Hoffan House to-day. He said that the factions fight within the Democratic party in Broome ounty was a very serious one, and might set the State ticket a great many votes.

"The State Committee," he continued, should take some action. There are two eratic county tickets in the field and two Democrats are running for Assembly. me is a Republican county, and if the split in the Democratic party continues I am certain that it will cost the State ticket hun-dreds of votes. The entire trouble has been ed by the 'pernicious activity' of Federal office-holders. They have used their postoffice-holders. They have used their posi-tions to control caucuses and overswe dele-gates to nominating conventions. The honest Democrats of Broome County are thorough-ly disgusted with the office-holding bosses. I have laid before the State Committee a mani-festo signed by the most prominent Demo-erats of our county, protesting against the usurpation and bossism of the Federal office-holders."

msurpation and bossism of the Federal office-holders."

The manifesto is a long one. Here are some extracts from it:

"For about two weeks preceding the so-called Democratic Convention, First Deputy Collector of the Port of New York, Charles Davis, Mr. James C. Truman, of the Treasury Department, and Messrs. King, Davidson, Lee, Terhune, Tuttle, Larkins and Sullivan, of the New York Custom-House, appointees in reality of Mr. Davis, spent their time in efforts—by every species of political cajolery, entreaty, intimidation, trickery and chicanery, in short, by all the tricks of the most unscrupulous partisan politics—to manipulate the primaries in the interest of Mr. Davis. The Postmasters throughout the county were generally similarly employed.

"The so-called Democratic County Convention was Democratic Order to County Convention was Democratic Order of the Fruit of Custom-House interference when assembled, for no other purpose than to give a fictitious and fraudulent vindication to Collector Davis.

"Hew can clerks be expected to be efficient in the Custom-House at New York when they spend weeks in Broome County in running canouses and conventions?

"Certainly eight men from the New York Custom-House, besides Deputy Collector Charles Davis, were there before and during the conventions. Since June Mr. Davis has spent more time in this county than in New York. He is the dispenser of the Federal patronage for the southern tier of counties."

Wed a Divorced Man for Fan. [SPECIAL TO THE EVENING WORLD.]

Madison, Wis., Oct. 17.—News of a singular marriage in Fairfield County last week is creating a good deal of talk throughout the State, though every effort has been made to suppress the news. Edward Foss, a station agent, forty years old, was out walking with a party when he met Miss Clara Foster, nineteen years old, who was driving with E. C. Hene, who is a Justice of the Peace. The sonversation turned on marriage, and one of the party laughingly suggested that Mr. Fose and Miss Foster be married, as Miss Foster would only have to drop the last three letters of her name and add an "a." The parties concurred jokingly, and Mr. Hene performed the coremony. Next day the serious nature of the affair dawned upon them and people in the village and here are very much interested. Miss Foster is the daughter of N. C. Foster, a millionaire lumberman. She has since the occurrence kept her room at home, and is greatly distressed. Friends of the couple see no way out of it but divorce. Mr. Foss was formerly married, but was divorced last spring. rd Foss, a station agent, forty years old, was

A Flirt in a Fight.

A lively row between two well-dreamed men attracted a large crowd in Union Square Park at 2. 30 o'clock yesterday afternoon near the cottage. Park Officer Patrick Mann wedged his way through the Officer Patrick Mann wedged his way through the gathering and parted the principals, who immediately accused each other of assault. One was Mr. A. A. Jergens, a florist, of 27 West Union square, and the other Edward Lola, an Italian waiter, of 126 East Twenty-fourth street. According to the stories told, Jergens was sitting on a bench with a friend when Lols and two laddes walked by. Jergens spoke to his friend in German, saying:

"Let us play mash on these two women."

Fols understood the language and said: "I think you had better mind your own business and let respectable ladies alone."

Jergens replied, and then the two men used their state. In the Jederson Market Police Court this thorning Justice Gorman fined Jergens \$10 and discharged Fols.

Some Questions Answered by the Hartford Post About the Tortilita Mines.

PREFERRED DIVIDENDS.

Since the article descriptive of the Tortilita Gold and Silver Mining Company appeared in the Evening Post, the publishers have been deluged with inquiries concerning the integrity of the company and with requests respecting the value of the company's property. We are glad to be able to reassure all inquirers and others interested in this subject. The publishers of the Post enjoy a personal acquaintance with Mr. Joseph H. Reall, President of the Tortilita Gold and Silver Mining Company, and know him to be an able and honorable gentlepany, and know him to be an able and honorable gentle-man. We have the fullest confidence in his integrity and ability, either personally or as representing the Tor-tilita Company, to perform faithfully whatever contract

he may make. In regard to the company's mining properties the facts are known. The Tortilita group of mines contain a vasi doposit of gold and silver ore. They have for some time been under development in a small way; that is, which we or three head-windlasses and a five-stamp mill. They have produced enough of the precious metals to mere than pay all expenses and prove their great value. The company is now contracting for the introduction of suitable machinery, and for the purchase of three twenty stamp mills, which will multiply the present producing capacity of the mines ten times without largely increasing expenses. To pay for these improvements they are sell-ing a given quantity of stock—a sensible and wise proceed-ing.

expenses. To pay for these improvements they are sening a given quantity of stock—a sensible and wise proceeding.

The management are giving their enterprise the widest publicity through the press, and thus courting the closest investigation of their property.

The company will be making five or six thousand dollars a day as soon as they get their fifty or sixty stamps in operation, and then the stock will probably be obtainable only for many times the price that it is on the market for to-day.

This statement, made without the knowledge of the company, is an answer to the average letter of inquiry which reaches this office by every mail. If its publication proves useful to the public we shall be very glad.—Hartford (Conn.) Font, Sept. 19, 1887.
